WINE COMPANY

## 2018 RIESLING

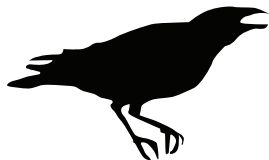

**RIESLING**  
WINE from WASHINGTON STATE

Corvidæ is the Latin name for the family of birds that includes the Crow, Raven, Jay and Magpie. These “dark” birds are everywhere in the vineyards of Eastern Washington. Their reputation as crafty, adaptable, and somewhat dubious characters is a fitting icon for our suspiciously terrific value wines from this region. The geology and climate here yields rich, complex fruit, with luscious fragrance and bright acidity. The wine is fermented entirely in stainless steel. Mineral laden soils contribute to this wine’s flinty character and lively flavors.

#### TASTING NOTES

Bright, refreshing and vibrant, this off-dry Riesling exudes mouthwatering acidity with key lime pie, honeysuckle and apricot notes.

13% Alcohol  
1.32% Residual Sugar
